### Technologies Covered

Bioelectronic Medicine  
Vagus Nerve Stimulation  
Peripheral Nerve Stimulation  
Closed Loop Stimulation  
Surface Stimulation Devices  
Wearable Therapies  
Electrode Design

### Issues Discussed

Obtaining Financing  
Partnering Opportunities  
Reimbursement Outlook  
Relationships with Bio/Pharma Firms  
Marketing and Distribution  
Developing Clinician Support  
Alternative Economic Models

### Featured Entrepreneurs

**Synergia Medical**, Mont-Saint-Guibert, Belgium. Manufacturer of optoelectronic neuromodulation systems.

**LunOSA**, Somerville, MA. Manufacturer of neuromodulation systems for treating sleep disorders.

**NeuroSigma**, Los Angeles, CA. Manufacturer of noninvasive neuromodulation systems for treating ADHD.

# 2025

This eighth annual meeting represents the premier management and investment conference for the new and emerging bioelectronic medicine industry. Attendees will have an exclusive opportunity to interact with some of the key leaders driving this field forward. The schedule of presentations and panel discussions features a host of experts with a wealth of information on the neuroscience industry and the investment community.

Sessions will cover a range of technologies and indications for bioelectronic medicine, including applications in cardiovascular medicine, inflammation, gastrointestinal disorders, and many other clinical specialties. Attendees will hear from some of the leading researchers and entrepreneurs developing clinically and commercially promising products such as implanted vagus nerve stimulation systems to treat hypertension, and surface stimulation devices to treat a range of disorders.

The conference is produced by Neurotech Reports, the publisher of the *Neurotech Business Report* and *BioElectRx Business Report* newsletters, and the leading market intelligence firm covering the neurotechnology and bioelectronic medicine industries. Our keynote speaker this year is Dr. Lisa Shafer, a vice president of biotech firm Biogen, and a knowledgeable executive with experience in both the medtech and pharmaceutical industries..

## Venue Information

The 2025 Bioelectronic Medicine Forum will take place in the Presidents Gallery at the New York Academy of Medicine at 1216 Fifth Ave., New York, NY. Luncheon, breaks, and cocktail reception will be in the Presidents Gallery.
